

8 the Template Method Pattern

✧ **Encapsulating** ✧ **Algorithms** ✧

We're on an encapsulation roll; we've encapsulated object creation, method invocation, complex interfaces, ducks, pizzas...what could be next? We're going to get down to encapsulating pieces of algorithms so that subclasses can hook themselves right into a computation anytime they want. We're even going to learn about a design principle inspired by Hollywood. Let's get started...
